A new future for Kimberley House, Meridian House and 32-33 Farringdon Street

Royal London Asset Management secured planning consent to redevelop the block of three buildings on the south eastern corner of Holborn Viaduct and Farringdon Street to create a new, sustainable, headquarters-style office building. We are committed to keeping our neighbours informed as to our progress and upcoming works.

Completed works

The Erith team have now begun the substructure breakout in Meridian House. This means controlled demolition works of the ground floor.

At 32-33 Farringdon Street has seen complete asbestos removal, and the erection of further scaffolding on the building. A soft strip of the interior began in early January and recently the stone façade removal has begun. Ground floor breakout is scheduled to take place on 14th February.

At Kimberley House, the superstructure demolition was completed earlier this year. Now, ground floor substructure breakout has begun and is scheduled to take place until completion in March.
